Dear Proffesor Dugin

My greatest regrets that the [REDACTED]
[REDACTED], Ukraine or some one else murdered
your daughter Darya.

I belive you have stated to kill all Ukrainians in
response to the murder of your daughter.

That would be white genocide. [REDACTED]
[REDACTED]
[REDACTED]

I suggest other route if you have not deicded
proper action yet.

The birth of Eurasia could begin with such Ukranian mass genocide but my suggestion is for it to begin with brotherhood and jesus level forgiveness.

No forgvieness for [REDACTED] murderers of your doughter Darya, but for the Ukranians. They are under attack and a brave white country will never give up even if the enemy is Russia it self.

Ukraine was one of the most free gangster state before the war. And through gangsterhood was I planning to achive one class society promised by liberal bolseviks back in the days.

One Gangster? One Cictizen!

The Gangsters work for the ctizens to fix what is illegal for them, and the police also work for the citizens to fix gangsters for them.

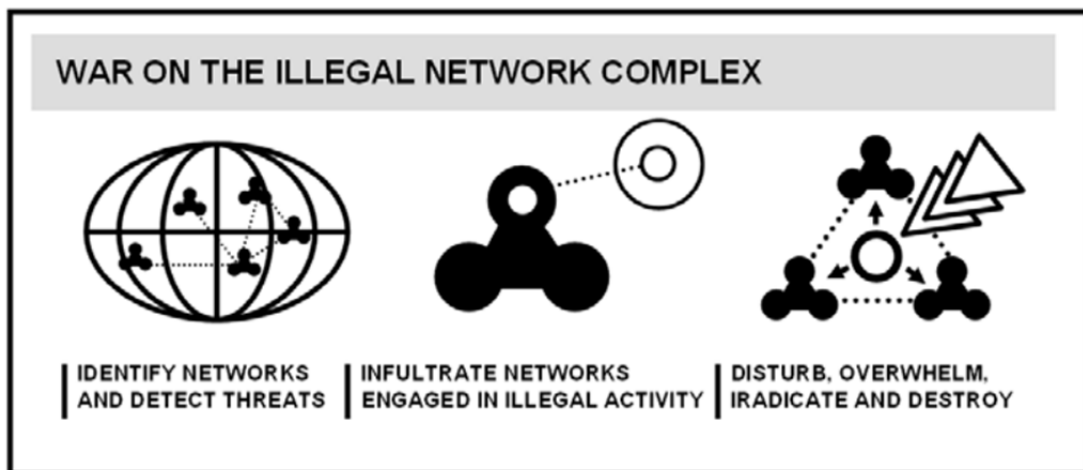

After Gangster Society, Citizen Scotey might be the next stage of one class society, so I recognize this window [REDACTED] to crush illegal activity in Eurasia, and to crush terrorism in Eurasia [REDACTED], which your doughter Darya has fallen from.

If Russia is expelled from the International Order for the special military operation in the Ukraine (1/7th of Russias Military take part) Eurasia

could look inward, and disregard all international regulations and just fix it self from with in.

And by this I mean brutal crackdown on criminal activity and terrorism.

War in the ---Classified--- Shall Commence

The Threat

*"The **new terrorism** is more violent. Under the old paradigm, terrorists wanted attention, not **mass casualties**. Now they want both." (113)*

"The New Terrorism"

By Russell Howard, 2007

*"The coincidence between the evolving changes of globalization, the **inherent weaknesses of the Arab region**, and the inadequate American response to both ensures that **terrorism will continue** to be the most serious threat to U.S. and Western interests in the twenty first century." (57)*

"Behind the Curve: Globalization and International Terrorism"

By Audrey Kurth Cronin, 2002'

*"Despite the **death and capture** of at least half its operational leaders, members and key supporters, the group **remains operationally effective**" (161)*

"Defeating Al-Qaeda – the Pioneering Vanguard of the Islamic Movements"

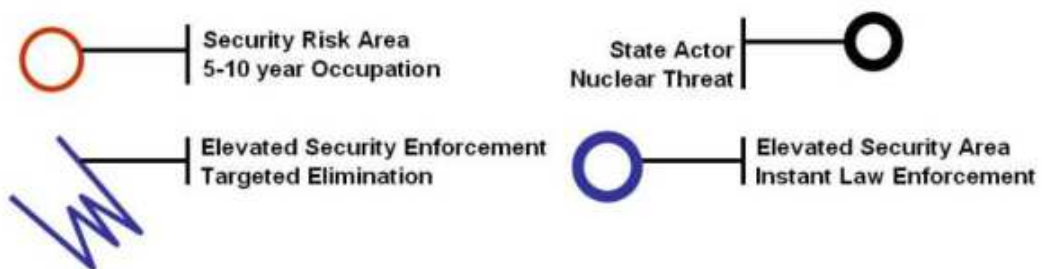

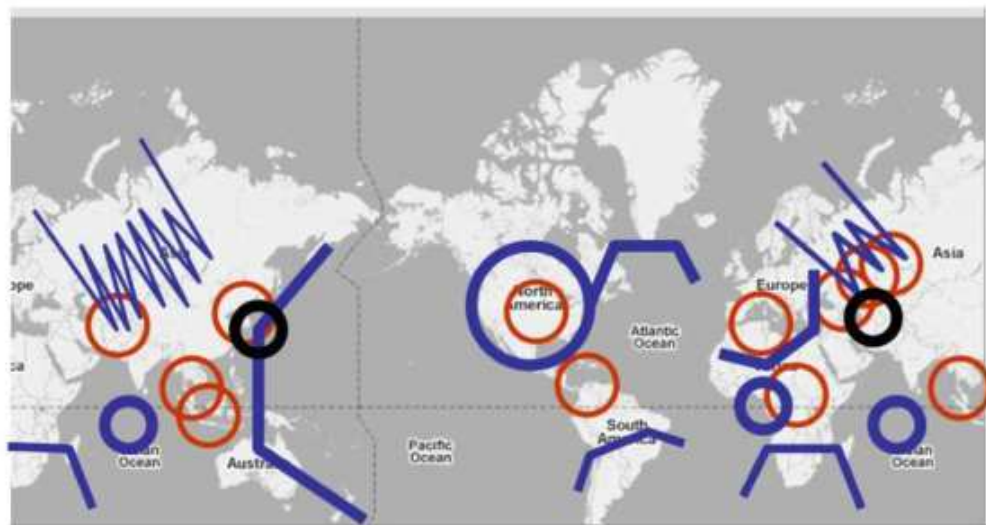

By Rohan Gunaratna, 2007

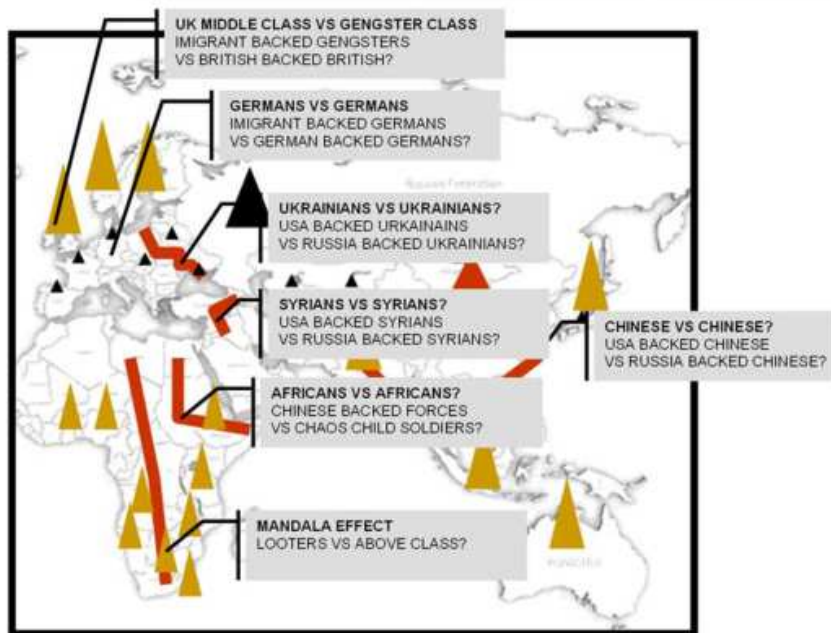

The United States' ability to deal with future threats will depend on its performance in current conflicts. To be blunt, to fail -- or to be seen to fail -- in either Iraq or Afghanistan would be a disastrous blow to U.S. credibility, both among friends and allies and among potential adversaries.

"A Balanced Strategy: Reprogramming the Pentagon for a New Age"

By US Defence Secretary Robert Gates, 2009

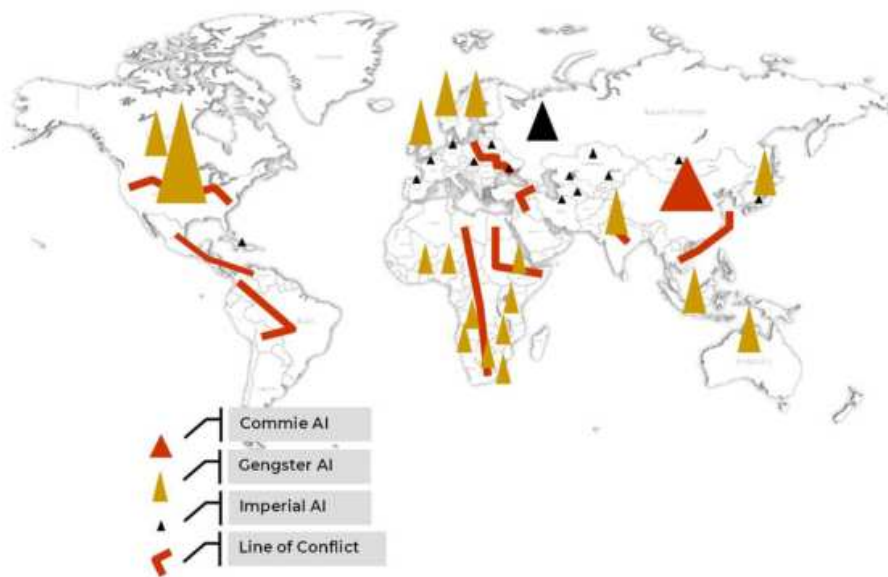

Suspensions: Seems like a seven front war on Eurasia?

If all these wars escalate all of Eurasia might fall towards China, which could end in a 60000 year long system of Communism.

Pentagon Budget secured. Also if another two three expensive regional wars are fought in Eurasia USA might go even more bankrupt. (29 Trillion USD in Debt already) Could result in a pancake collapse of all Anglo Saxon Governments which would lead to the privatisation of given Anglo Saxon countries. Who would purchase it? Their intelligence communities. Just like the USSR was privatised towards out „Kibaszott Gazdag Barátaink” ? Probably.

GLOBAL SOLUTION INITIATIVE 2

Current Situation: AI systems are replacing older systems, moves are defensive yet offensive. One of the code that is enforcing its will is the Russian led attempt to unify Europe under a more advanced flag (Imperial Code) the other is UK and Anglo Saxon led AI expedition to unify humannity in a Gengster Code. Commie Code is the Chinese version, which probably has both imperial and gengster elements.
