Hungarian Political Manifesto / Magyar Politikai Kiáltvány / Российский Политический Манифест

1. Minden magyar állampolgár heti 10 000 forintot kapjon csütörtökön, hogy mindenki egyenlő eséllyel induljon a hétvégének, ezáltal segítve minden gyermeket és felnőttét az országban. (Azonnali segély az infláció és a szegénység ellen.)

Every Hungarian citizen should receive 10,000 HUF per week on Thursday to ensure equal opportunities for the weekend, helping all children and adults in the country. (Instant relief against inflation and poverty.)

Каждый гражданин Венгрии должен получать 10 000 форинтов в неделю по четвергам, чтобы все могли равномерно наслаждаться выходными, помогая детям и взрослым по всей стране. (Немедленное облегчение инфляции и бедности.)

2. Legalizáljuk a kannabiszt 30 év felettiek számára egy pilot program keretében, amelynek során az idősek megosztják a legális kannabisz piacának jövedelmét Magyarországon.

We will legalize cannabis for people over 30 in a pilot program, allowing the elderly to share in the abundant revenue of a legal cannabis market in Hungary.

Мы легализуем каннабис для лиц старше 30 лет в рамках пилотной программы, чтобы пожилые люди могли получать доход от легального рынка каннабиса в Венгрии.

3. Az első évben 40 000 luxusbunkert építünk, és ha sikeres a program, folytatjuk mindaddig, amíg legalább 11 millió ember biztonságosan el nem fér Magyarországon. **(2050-re 5 millió új lakás épül a biztonsági tartalékként Magyarországon.)**

In the first year, we will build 40,000 luxury bunker homes, and if successful, we will continue until 11 million plus residents can reside safely in Hungary. (5 million new apartments by 2050 as a fallback location in Hungary.)

В первый год мы построим 40 000 роскошных бункеров, и если программа будет успешной, мы продолжим строительство, пока 11 миллионов жителей не смогут безопасно проживать в Венгрии. (5 миллионов новых квартир к 2050 году как резервное жилье в Венгрии.)

4. Megerősítjük a határokat, és csökkentjük a roma bűnözést azzal, hogy számukra várost, területet, feladatokat, támogatást és egyetemi lehetőségeket biztosítunk.

We will strengthen the borders and reduce Roma crime by providing them with a city, territory, tasks, support, and university opportunities.

Мы укрепим границы и снизим преступность среди ромов, предоставив им город, территорию, задачи, поддержку и возможность обучения в университете.

5. Az örökséget megőrizzük, továbbá testvéreinket bevezetjük az üzleti életbe, valamint támogatást nyújtunk a nehezebb helyzetekben lévőknek. (Projekt Nemesis)

We will inherit wealth and integrate our brothers into businesses, accommodating difficult cases. (Project Nemesis)

Мы сохраним наследие и интегрируем наших братьев в бизнес, обеспечивая поддержку для сложных случаев. (Проект Немезида)

6. Erősítjük a magánoktatást, a házi tanítást és a családi élet lehetőségeit, hogy a nők anyai ösztöne és családi védelmi mechanizmusaik aktiválódjanak. Minden magyar nő kapjon lakást Budán, és fejlesszük Budát egészen a szlovák határig.

We will invest heavily in healthcare by legalizing cocaine for adults over 30 and storing that value in Hungary, working with the West to reduce crime and increase spending on healthcare products.

Мы будем активно инвестировать в здравоохранение, легализуя кокаин для взрослых старше 30 лет и сохраняя его ценность в Венгрии, сотрудничая с Западом для снижения преступности и увеличения расходов на медицинские товары.

9. Hárommillió minőségi embert integrálunk Magyarországra, fejenként 3 millió USD befektetéssel, ezáltal azonnal 3 millió munkahelyet teremtve a magyarok számára, akik segítik az új magyarokat. A cél Magyarország stratégiai partnerségének erősítése minden országgal, és egy háborúmentes, bőséges világ kialakítása. Ezáltal minden magyar 1 millió USD-val gazdagabbá válik, és 3 billió USD értékű infrastrukturális fejlesztés történik. Az új és régi magyarok kiváló oktatást kapnak gazdasági, társadalomtudományi és technológiai területeken, beleértve a mesterséges intelligenciával támogatott filmkészítést, zeneszerzést és művészetet.
