

MISSION STATEMENT – “LibertyLine / Regime Change 2026”

We believe in a world where communication is a right, not a privilege. LibertyLine is a revolutionary telecom movement, backed by visionaries like Oprah Winfrey and Barack Obama, delivering free global voice and text communication to every American — no apps, no surveillance, no gatekeepers.

For two years, every U.S. citizen will receive a classic mobile phone and unlimited global communication access. Starting in 2027, the service will cost just \$20/year.

But this is more than technology — it's a call to action.

Regime Change 2026 is a peaceful, democratic campaign to break the stranglehold of corporate politics. Inspired by the spirit of the 1990s, when people rose to reclaim their future, we're organizing a new wave of civic power — direct, simple, and unstoppable.

With one phone and one network, **we unite the people, we ignite change, and we rebuild democracy from the ground up.**
